SUMMARY

A highly organized and proactive individual with strong management, communication, and multitasking abilities. Skilled at coordinating teams, handling responsibilities efficiently, and adapting to fast-paced environments while maintaining attention to detail. Known for leadership, problem-solving, and ensuring smooth execution of tasks and projects.

EDUCATION

Bachelor of Technology: St. Francis Institute Of Technology,Mumbai
2024– 2028 (CGPA: Avg 8.6)

Aug 2024 - Present

COLLEGIATE ACTIVITIES:

- **Vice Chairperson- CSI SFIT** Jun2026– Present
- **Head – NSS SFIT** Jun2026– Present
- **PR Executive – Google Developers Group, SFIT** Jan2026 – Jun 2026
Managed Pring and Script making for HackX2.0 Hackathon.
- **Volunteer – NSS SFIT (*Volunteer of the month july'25*)** Jul 2025 – jun 2026
Designed poster,carousels , directed a short reel & contributed in clean-ups & tree planting.
- **Joint PR & SM Head – SFIT Alumni Association** Jul 2025 –jun 2026
Led alumni engagement through PR, events, and social media outreach, managed webinars amd quizzes on slido single handedly, Currently working on newsletter and rekindle.
- **PR Executive – CSI SFIT** Jul 2025 – jun2026
Handling in event management and social media captions, scripting, hosting etc.
- **Marketing Executive – Student Council,SFIT** Mar 2025 – Apr 2025
Coordinated sponsor communication,draftedmarketingemails.
- **PR Executive – Student Council, SFIT** Mar 2025 – Apr 2025
Drafted messages, managed registrationsdesk,andpromotedeventsthrough social media & public speaking acrosscollege.

SKILLS

- **Technical & IT Skills**
Python • C •HTML •CSS • Java • React • Node js •Data Analytics• AI/ML (basic) •Full Stack Web Development •Power BI •Advanced SQL •DSA •Flask •Pandas •Plotly • Frontend: Next.js + Tailwind CSS •Backend: FastAPI + Python •AI: Groq + Llama 3.3 •Deployed: Vercel + Render, Streamlit,Railway • Automation
- **AI Tools & Productivity**
Chat GPT •Gemini •Claude •Perplexity •Gamma •Blackbox •HappyScribe •Bolt •Apify •Goose •Chroniclehq
Skilled in prompt engineering and extracting detailed, unique and creatives outcomes from ai
- **Creative & Design Skills**
Poster & Carousel Design •UI/UX •Adobe Photoshop •Canva •Social Media Design •Content Marketing •Copywriter
- **Research & Analytical Skills**
Documentation • Data Interpretation • Desk Research • Proposal Drafting
- **Communication & Leadership**
Public Speaking • Presentation Skills •Time Management •Team Collab •Multitasking
Have done anchoring and have been a speaker at an orientation twice.

WORK EXPERIENCE

- **Copywrite Intern – EvolvEd** May 2026 — Present
Creating engaging content for the college's official social media channels, including PR drafts, LinkedIn posts, and HTML emailers. Contributing creative ideas and communication strategies to strengthen the institution's digital presence.
- **Assistant Director – Final Cut Studio & Production** Sept 2025- Oct 2025
Worked as an Assistant Director for a SAREGAMA music video featuring a renowned rapper, managing both creative and production responsibilities. Coordinated teams, prepared shoot documents, and ensured smooth on-time execution of scenes.
- **Graphic Designer – Zoetics (B2B, Family Business)** May 2025 – Present
Designed digital creatives, product catalogs, and marketing visual tailored for B2B communication, ensuring brand consistency and client engagement. Designed Festival wishes digital templates.
- **Data Science & Analytics Intern – Remarkskill xIIITH** Jun 2025 – Jul 2025
Worked on data preprocessing, exploratory analysis, and visualization to derive insights, applying Python and analytics tools for real-world datasets.
- **Exam Invigilator – Arihant Academy (Part-time)** Aug 2024 – Mar 2025
Supervised examinations, maintained discipline, and ensured smooth execution of academic protocols. (Covered 8th, 9th and 10th grade students)
- **Teaching Assistant – Arihant Academy (Freelance)** Dec 2025 – Apr 2026
Nov 2024 – Feb 2025
Nov 2024 – Feb 2025
Dec 2025 – Apr 2026
Assisted students with concepts in English, Mathematics and Science conducted doubt-solving sessions, and supported lesson planning. (Covered 8th, 9th and 10th grade students) Taught the core concepts, practice sums and previous year papers to 10th students right before their board examinations.
- **Actor/Assistant Director Intern – Momomoto Studios** Apr 2024 – Jul 2024
Contributed to script discussions, scene execution, and creative direction, while also performing as an actor in short-form content.

CERTIFICATIONS

Colloquium'26 [SFIT]- Consolation Winner'II [Role- Team Lead]

Agastya Foundation x JP Morgan Chase - An engineering Mentor helped government school children in project

NSS [SFIT]- Samadhan Ideathon- Top 5 [Role: Team Lead]

OutSkill- A live intensive AI workshop packed into 16 hours across 2 days

IBM SkillsBuild : Machine Learning and Deep Learning | Natural Language Processing and Computer Vision | Artificial Intelligence Fundamentals | Data Fundamentals with Capstone Project | Data Fundamentals Data Science in Our World | Building Chatbot | Run AI Models with IBM Watson Studio | Your Future in AI

Deloitte & Forage: Deloitte Australia - Data Analytics Job Simulation

Coursera: Getting Started with Microsoft Excel | Use Canva to Design Digital Course Collateral

Cognitive Class : IBM Developer Skills Network-Big Data 101

Indian Institute of Technology, Bombay x Remarkskill : Artificial Intelligence and Machine Learning

Indian Institute of Technology, Hyderabad x Remarkskill : Data Science and Analytics

Smart India Hackathon 2025- Idea ppt

St. Francis Institute of Technology Alumni Association: Reimaging Software - Cloud x AI

Secured Bharat, Cyber Xplore: Cyber Security

White Hatjr - Game Developer

PROJECTS

- **COVID-19 Analysis:** Developed a data analysis project to track COVID-19 case trends, recovery rates, and death rates using real-world datasets. The project involved data cleaning, preprocessing, and visualization to present key insights.
- **Titanic Data Analysis:** Explored the Titanic dataset to predict passenger survival using data preprocessing, EDA (Exploratory Data Analysis), and ML (Machine Learning) models. The project included data cleaning, visualization with Matplotlib and Seaborn, and a detailed analysis of factors influencing survival.
- **Netflix Data Analysis & Visualisation Platform:** Developed and deployed a full-stack web application using Netflix dataset insights, featuring movie search, filters, genre analysis, and interactive visualizations.
- **Tic-Tac-Toe Game:** A Python-based Tic-Tac-Toe game that includes an AI opponent and emoji support for a more engaging user experience.
- **Advanced Calculator (Tkinter):** A fully functional and standard scientific calculator built with Python and the Tkinter library, demonstrating proficiency in GUI (Graphical User Interface) development.
- **Hand Recognition and Finger Counting:** This is an in-progress AI project.] A project focused on real-time hand recognition and finger counting using OpenCV and MediaPipe. It utilizes computer vision techniques to detect hand landmarks and a custom algorithm to count the number of extended fingers.
- **CareerGPS AI:** Developed and deployed an AI-powered career guidance platform. Integrated resume, GitHub, and LinkedIn analysis, job market trend insights, AI chatbot support, interview assessment, and personalized career recommendations through an automated full-stack system.
- **CyberGuard AI- Spam Detection:** It detects spam, paste any suspicious message, URL, or upload a screenshot. AI analyzes it in under 2 seconds. Zero data stored. It also has a heatmap and it also detects deepfakes like AI generated images and manipulations.
- **Kid's Edutainment Website-** Fun learning platform design for children aged 0-12 with games, cartoons, and creative content.
- **AI chatbot:** Designed and implemented a WhatsApp chatbot integrated with hospital QR scanners to help users instantly locate affordable generic medicines, access store details, and navigate efficiently using structured backend data systems[[part of that AGASTYA FOUNDATION X JP MORGAN PROJECT](#)]
- **Developed SheShield,** a smart women's safety solution integrating gesture-based SOS, real-time GPS tracking, and smartwatch support for rapid emergency response. Focused on proactive safety, secure communication, and community-based assistance.
- **Secure Smart Locker for Contactless Delivery (IoT-Based): Hardware + software**

Designed and developed a space-efficient IoT-enabled smart locker for secure, contactless home deliveries. Integrated microcontroller-based access control with OTP authentication and real-time mobile notifications to ensure package safety. Implemented Wi-Fi connectivity, electronic locking mechanism, and sensor-based parcel detection for automated operation. Focused on enhancing last-mile delivery security and user convenience through smart automation. Tech Stack: Arduino / Raspberry Pi, Embedded C , React , node js , IoT Sensors, Wi-Fi Module, Mobile App Integration, Cloud Authentication
